# Exhibit H - LONG-TERM CARE - CLASS I NURSING FACILITIES Footnotes and Assumptions

#### Class I Nursing Home Calculations for FY 2021-22, FY 2022-23 and FY 2023-24 Footnotes:

(1) Per HB 08-1114 and SB 09-263, the Department implemented significant changes in the reimbursement rate methodology for nursing facilities. Beginning in FY 2008-09, instead of reimbursement based on an overall per diem rate, facilities are reimbursed based on a per diem rate for core components as well as supplemental per diem rates for eligible facilities. The core components include fair rental value; direct and indirect health care; and administrative and general costs. Supplemental payments are made for providers who have residents with moderate to severe mental health conditions, cognitive dementia, or acquired brain injury; and to providers who meet performance standards. In addition, supplemental payments are made as part of the prior year rate reconciliation process and as a provider fee offset. The following table includes the historical per diem reimbursement rates and the estimated and projected per diem rates for FY 2012-2013 through FY 2023-2024. The core per diem less patient payment represents the Total Fund portion of nursing facility reimbursement.

(2) The patient days estimate is a trended value using incurred-but-not-reported (IBNR) adjusted data. Values for prior years differ slightly from prior Budget Requests due to the inclusion of claims paid between those requests and this request. Hospital Back Up days are removed from this calculation.

# Exhibit H - LONG-TERM CARE - CLASS I NURSING FACILITIES Footnotes and Assumptions

- (3) Estimated costs for current year dates of service is the amount the Department expects to pay for services rendered in the current fiscal year regardless of which fiscal year the payment is made.
- (4) Of the estimated costs for the current year dates of service, a portion of those claims will be paid during the same fiscal year in which they were incurred while the rest of the claims will be paid in a future period. In order to estimate how much of the total expenditure incurred in the current year will be paid in the current year, expenditure patterns must be analyzed by month. This is because, for example, a claim incurred in July 2019 has 11 more months to pay during FY 2019-20 (from August 2019 to June 2020), while a claim incurred in May 2020 only has one additional month to pay during FY 2019-20 (June 2020). Thus, more claims from May 2020 will pay in FY 2021-22 than claims from July 2019. Based on the Department's estimate of incurred but not reported (IBNR) claims, the Department estimates in the table below the portion of claims outstanding for any given fiscal year by analyzing estimated IBNR (based on five years of data) and averages the total to provide an estimate of the total percentage of claims that will pay in the same fiscal year that the claim was incurred.

Estimate of Claims Incurred and Paid in the Same Fiscal Year

Month Incurred	Additional Months Until End of Fiscal Year	Estimated Percent Complete at End of Fiscal Year (IBNR Factor)
July	11	99.92%
August	10	99.89%
September	9	99.85%

The IBNR factor does not apply to supplemental payments since these payments are calculated and paid once per year with no retroactive adjustments.

(5) As calculated in the table below, the estimated FY 2021-22 expenditure for core components with FY 2020-21 dates of service is the estimated FY 2020-21 core components per diem rate, less the estimated per diem patient payment rate, multiplied by the estimated number of patient days. This calculation is then multiplied by one minus the calculated IBNR rate.

#### Exhibit H - LONG-TERM CARE - CLASS I NURSING FACILITIES Footnotes and Assumptions

Hospital Back Up (HBU) and out of state placements are programs where the Department pays a much higher per diem for specialized clients which can be several times the statewide average Nursing Facilities Medicaid reimbursement rate. This is an intermediate level of care in between the hospital and a skilled nursing facility. Types of clients treated under this program include ventilator, wound care, medically complex and traumatic brain injury with severe behaviors. This group is difficult to budget for due to the fluctuation in client base. FY 2007-08 expenditure was lower than previous years due to a facility which was placed under a "Denial of Payment for New Admissions" status for failure to comply with certain standards, although this has since been rectified. In FY 2008-09, expenditure rose sharply due to an increase in billed patient days. In FY 2009-10 no facilities were accepting new clients. In FY 2010-11 one new client was added to the program. In FY 2013-14, there was a spike in enrollment. It appears there was a level shift in enrollment in FY 2013-14 with enrollment figures staying consistent into FY 2014-15. Expenditure increased again sharply in FY 2015-16 and maintained high growth until expenditure plateaued from Fy 2018-19 to FY 2019-20. In FY 2020-21, expenditure grew significantly due to an increase in patient days. Currently, the Department is working to evaluate the efficacy and design of the HBU program. As the Department continues through this process, client admission into the program will be evaluated on a case by case basis. The Department assumed growth in FY 2021-22 would be in line with YTD costs, with lower growth in FY 2022-23 and FY 2023-24.

(7) Overpayment review recoveries are amounts that the Department recovers from nursing homes. The Department contracted with a contingency based contractor to do a five year historical audit of all the facilities, and the contract expired at the end of FY 2005-06. In the most recent fiscal years, the Department audited a number of facilities with fewer overpayment issues and thus did not recover as much.

- (8) As of July 1, 2014, SB 14-130 raised the basic minimum amount payable for personal needs to any recipient admitted to a nursing facility or intermediate care facility for individuals with intellectual disabilities from \$50.00 to \$75.00, monthly. This amount increases by 3.0% annually on January 1st of each year.
- (9) The General Assembly appropriated funding for the Department of Local Affairs for an increase to housing vouchers for people transitioning from a Medicaid-financed nursing home to a community setting. The increase in housing vouchers is projected to decrease nursing home costs by lowering patient days and utilization of nursing home services.

#### Footnotes

- (1) The Average Monthly Paid Enrollment is not the actual enrollment in the Department's PACE program. This figure reflects the number of capitations paid in each month, not the distinct number of clients enrolled. For further information, please see the Budget Line Item Description.
- (2) The FY 2010-11 Per Enrollee costs are adjusted for the PACE reconcilitation with providers from FY 2009-10. These figures subtract out the reconcilitation to keep trends consistent historically.

  (3) Per-enrollee costs for FY 2021-22, FY 2022-23, FY 2024-25 are a weighted average of FY 2021-22 rates by forecasted FY 2021-22 provider distribution and FY 2021-22 third-party-liability status.
- (4) Estimated costs per enrollee in this exhibit do not represent future rates in FY 2022-23 forward, as information that is necessary to accurately calculate actuarially sound rates is not available at this time. The cost per enrollee information in this exhibit is for information apurposes only. Please see the Narrative for more information on PACE rates.
- (4) Estimated costs per enionee in this exhibit do not represent future rates in F1 2022-23 toward, as information that is necessary to accurately care.
  (5) Monthly Paid Enrollment figures for FY 2021-22, FY 2022-23, and FY 2023-24 are estimated via month to month trends in enrollment growth.
